More than 150 faculty, staff and students planted flowers and attended ceremonies during the first annual Chauncey Leake Day on June 2. Leake was the distinguished scientist and teacher, who died in 1978 after devoting a half-century of service to UCSF.

Ceremonies included the dedication to Leake of the garden at 745 Parnassus and the unveiling of the first UCSF boundary sign there, the surprise dedication of the mini park behind UC Hospital in honor of Nat Garibaldi, who was responsible for creating it and other areas for relaxation around the campus, and the planting of a vegetable and flower garden by the youngsters of the Child Care/Study Center in the lot at the northeast corner of Third Avenue and Parnassus.

The events were highlighted by UCSF's own marching band, whose members are: Roger Crumley, Hal Nachtrieb, John Middlebrook, David Watts, David Hohn, George Evanoff, Ken McCollum, Tom Grotz, Roger Torrey, Vernon Harp and John O'Meara.

A reception followed in the Millberry Union lounge with entertainment provided by a jazz ensemble with David Watts, Roger Crumley and John Conte, and singer/songwriter Doug Closson, a second-year Pharmacy student.

In connection with Leake Day a special poster has gone out to the campus community offering free pick-up of any material that needs to be disposed of. All faculty, staff and students are urged to go through their work area and throw away anything that is of no use. For further information on the removal of unused items call extension 2021.

NEWS BRIEFS

Karen M. Johnston, MD, received the prestigious Gold-Headed Cane Award of the School of Medicine during commencement exercises on May 30.

The highest honor a graduating medical student can receive, the cane is presented to the UCSF senior judged by classmates and faculty as best exemplifying the qualities of a "true physician." The runners-up were: Kenneth R. McQuaid, MD, and Jack C. Worthington, MD. All three were elected to the Gold-Headed Cane Society.

In recognition of their outstanding contributions to patient care and teaching, two emeritus professors also were made honorary members of the society — Francis L. Chamberlain, MD, clinical professor emeritus of Medicine, and Maurice Sokolow, MD, professor emeritus of Medicine and CVRI.

In addition, five faculty members were recognized for outstanding teaching ability and given the Kaiser Awards for Excellence in Teaching. The recipients were: Mervin Goldman, MD, Medicine, volunteer clinical faculty member; Hideyo Minagi, MD, Radiology, SFGH, and David H. Rosen, MD, Psychiatry, co-winners for fulltime faculty from a clinical department; Sexton Sutherland, PhD, Anatomy, fulltime faculty in the basic sciences; and Roger K. Larson, MD, Medicine, the first recipient of the award for a faculty member based in Fresno.

The following individuals were selected by the graduating class as outstanding faculty and housestaff: Lawrence Tierney, MD, Medicine, VAMC; Richard Haber, MD, Medicine, SFGH; William Margaretten, MD, Pathology, SFGH; Donald Heyneman, PhD, Epidemiology and International Health; Jack De Groot, MD, Anatomy; Melvin Cheitlin, MD, Medicine and Cardiology Service, SFGH; Henry Ralston, III, MD, Anatomy; Bertram Katzung, MD, Pharmacology; James Naughton, MD, Medicine; and Steven Ross, MD, Radiology. Housestaff: Molly Cooke, MD, Medicine, SFGH; Paul Yock, MD, Medicine; Dea Angiolillo, MD, Medicine; Gerald Aurigemma, MD, Medicine; and Susan Kull, MD, Ob/Gyn.

Afaf Meleis, PhD has been selected as the first Helen Nahm Research Lecturer. She will speak on "The Age of Nursing Scholarliness: Now Is The Time," on Friday, June 19, 2 to 3 p.m. in Room N721-729. School of Nursing Dean Emeritus Helen Nahm will be present.

The research lecturer, who must be a UCSF School of Nursing faculty member or alumnus, also receives the distinguished Helen Nahm Research Award for outstanding contributions to nursing science and research. Meleis, professor, Mental Health and Community Nursing, was selected for her contributions in three areas: role supplementation, issues in women's health and international health and as a model for scholarship among her colleagues and students. She also has written extensively on the qualities of excellence in graduate work and scholarship.

The outstanding performance of two School of Medicine graduates has been acknowledged by the Dr. and Mrs. Joseph Fife Surgical Award and Scholarship. Laurel Dawson, MD, who will serve her residency at Mount Zion Hospital, has been awarded the Scholarship and Michael Glenn, MD, who will begin his residency in the Department of Surgery, the surgical award. Both are members of the Alpha Omega Alpha honorary medical society.

The scholarship and award were established by William Fife, a 1921 UC graduate, in memory of his aunt and uncle, Dr. and Mrs. Joseph Fife. Dr. Fife was a 1894 graduate of UC, and received his MD in 1896 from the Cooper Medical College. In 1903 he married Georgia E. Reed, a UC graduate of 1893. They settled in San Francisco where she actively participated in art and civic affairs and he practiced medicine until his death in 1957.

Applications now are being accepted from children ages 6 to 18 who have hemophilia and other bleeding disorders for a special summer camp which will run June 20 to 26 at Camp Cazadero, near the Russian River.

Co-sponsors are the hemophilia programs at UCSF and Children's Hospital in Oakland, and the Northern California Chapter of the National Hemophilia Foundation. Cutter Laboratories is donating blood factor concentrate used in treatment of hemophilia.

The camp, which offers a wide range of activities, from baseball and basketball to swimming and hiking, provides a vacation to youngsters, who because of medical needs, often are refused admission to regular camping programs.

For further information contact Susan Karp, organizer of the program at M 650, extension 1280 or Jackie Gianinno, Hemophilia Foundation, 1815 Telegraph Avenue, Room 215, Oakland, CA 94612, 444-4855.

The Center on Deafness is hosting a national conference entitled "The International Year of Disabled Persons: Cooperation Between the Consumer, the Professional and the Government," on Monday to Wednesday, June 15 to 17 at the San Francisco Hilton.

The conference is chaired by Hilde S. Schlesinger, director of the Center on Deafness, and will feature presentations by several experts in the field of the needs of the handicapped, including the Reverend Monsignor John P. Hourihan, vice chair of the National Council on the Handicapped.

In addition, "The Electric Signs," a singing group who signs for the hearing impaired, will give a special performance on Tuesday evening. All individuals working with the disabled are invited to attend the conference. For registration and program information call extension 4980.

The Personnel INFO line (extension 4636) has just been reactivated. All employees wishing up-to-date information on the July 1 salary range adjustments should call that number. It is likely that the INFO line will be discontinued after the range adjustment is implemented.

In addition, the Personnel Department will post in their bulletin board in the Medical Sciences lobby the details of the range adjustment package as soon as final approval is received from UC Systemwide.

The Parking Garage will have new fees starting July 1: permits A, G, and HS-$21; permit B-$11; permit L-$1; permit N-$8, pools-$21 and RA-$5. These increases are the first since 1974 and will help offset inflation. Fees for parking during non-standard times remain unchanged to encourage individuals to use the garage during the evening hours. For further information contact Bill Stevens at extension 2566 or Bob Cannon at extension 2496.

The School of Nursing will host a post-conference following the International Council of Nurses meeting, which convenes the first week of July in Los Angeles. Presentations on faculty and student foreign exchange programs and other topics related to higher education in nursing will comprise the informal two-day post-ICN program on Sunday and Monday, July 5 and 6. Fifty educators from around the world are expected to attend.

In conjunction with the conference, Continuing Education in Nursing is sponsoring a symposium on Tuesday, July 7 at the Jack Tar Hotel. The symposium, entitled "The Impact of Nursing Upon Family Health Care World Wide," will feature speakers from Africa, Southeast Asia, Latin America and the Middle East. For further information call extension 1817.

Norman Talal, professor of Medicine at VAMC has been appointed chief of the Division of Clinical Immunology, Arthritis & Allergy at the VAMC, San Antonio and professor of Medicine and Microbiology, University of Texas, effective July 1.

The new Graduate Students Council officers are: Amy Eisenfeld, president, Internal Affairs; Tom Woolf, president, External Affairs; Kathy Maloney, vice president, Finance; Suzie Blake, vice president, MS Nursing; and Karen Yurch, vice president, Publicity.
